Why It Matters

- ✓ Empty shelves cost sales & customers
- ✓ Over-ordering keeps capital tied up

The screenshot displays the PriceEasy Store Ordering interface. The top navigation bar includes the PriceEasy logo, client name (5199 - Client Name), and a 'Store Ordering' section with icons for Fuel, Store, Real Estate, University, and Insights. Below the navigation, there are tabs for 'Inventory Overview', 'Vendor Cart', 'Purchase Orders', and 'Order Setup'. A notification indicates 'Products running Out Of Stock: 20'. The main content area features a search bar and a table of product inventory details. The table has columns for 'Out of Stock Stores', 'Current Inventory', 'Sales Forecast (Next 7 Days)', 'Inventory Days Left', 'Safety Stock', 'Min Inventory', 'Max Inventory', 'Reorder Date', and 'Vendor'. The table lists various products such as Redbull Drink, Monster Energy Drink, Budweiser Magnum Beer, and Lays Cream & Onion Chips, with their respective stock levels and reorder dates. A callout box in the bottom right corner contains a green circular icon with a refresh symbol and the text: 'No spreadsheets. No second guessing. Reorders happen on data, not gut feeling.'

Store Receiving

Receive and reconcile with speed and accuracy.

The screenshot displays the PriceEasy 'Store Receiving' interface. It features a navigation bar with 'PriceEasy' and 'Store Receiving' tabs, and a sidebar with filters for 'Station' and 'Product Categories'. The main area contains a table of invoices with columns for 'Invoice ID', 'Vendor Name', 'Date Invoiced', 'Items Invoiced', 'Invoice Amount', 'Items Delivered', and 'Received Amount'. Several rows show variance alerts, such as '15' items delivered instead of '20' and '\$75' received instead of '\$100'. A callout box highlights 'Instant variance alerts to eliminate shrinkage' with a box icon. Another callout box at the bottom right highlights 'Paper invoices digitized instantly' with a document icon. A circular icon with a dollar sign and arrows is also present at the bottom left.

Why It Matters

- ✓ Deliveries form the **foundation of inventory accuracy.**
- ✓ Store Receiving ensures every shipment is **captured, verified, and reconciled** in real time.

Every delivery, verified.

No blind spots. Every shipment logged the moment it arrives.

The screenshot displays the PriceEasy 'Store Receiving' interface. At the top, there's a navigation bar with 'PriceEasy' logo, client name, and various menu items like 'Favorites', 'Fuel', 'Store', 'Real Estate', 'University', and 'Insights'. Below this, there are tabs for 'Invoices Overview', 'Invoice Errors', and 'Over Delivered Invoices'. A search bar for 'Search Invoice' is present. The main section is titled 'Over Delivered Invoices' and contains a table with columns: Invoice ID, Vendor Name, Items Received, Items in PO, Items with Excess Quantity, Received Amount, Store Name, PO ID, Reconciliation Status, and Actions. One invoice is highlighted: Invoice ID 512425125, Vendor Name Ryan Vendors, 5 Items Received, 5 Items in PO, 2 Items with Excess Quantity, Received Amount \$80, Store Name 51-Partway Stores, PO ID #8458512510, and Reconciliation Status MIS-MATCH. Below the table is a detailed view of the products:

The screenshot displays the PriceEasy Inventory Management interface. The top navigation bar includes the PriceEasy logo, client information (5199 - Client Name), and various menu items like Favorites, Fuel, Store, Real Estate, University, and Insights. Below this, there are tabs for Real-Time Inventory, Cycle Count & Variance, Receiving Log, Approvals Needed (with a notification badge), and Vendor Performance. A total inventory value of \$675M is shown on the right.

The main content area features a search bar for stores and a table of cycle counts. The table has columns for Count ID, Store ID, Store Name, Category/Aisle Counted, Employee Name, Date & Time, and Total Variance. The data is organized into three groups of three rows each, corresponding to Store IDs 51, 42, and 36. Each row includes a checkbox for selection and an Actions column with buttons for PENDING APPROVAL, APPROVED, and REJECTED.

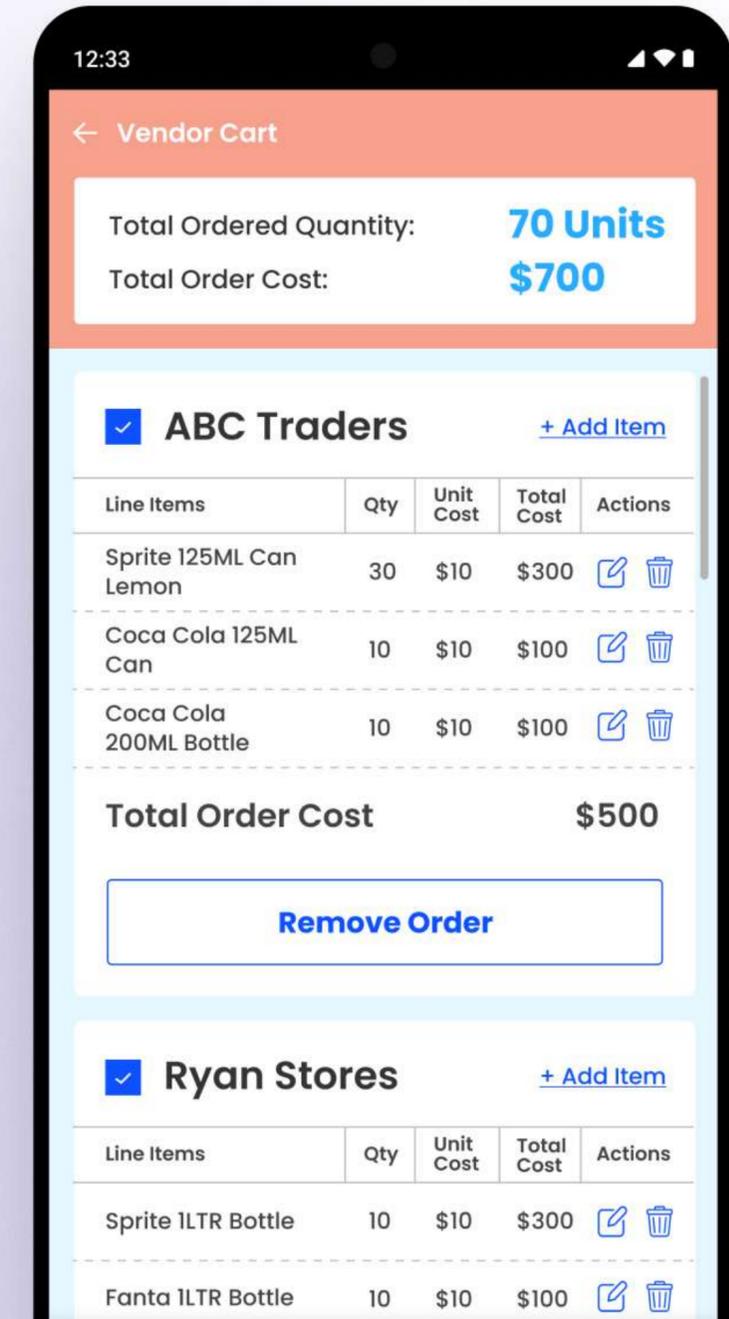

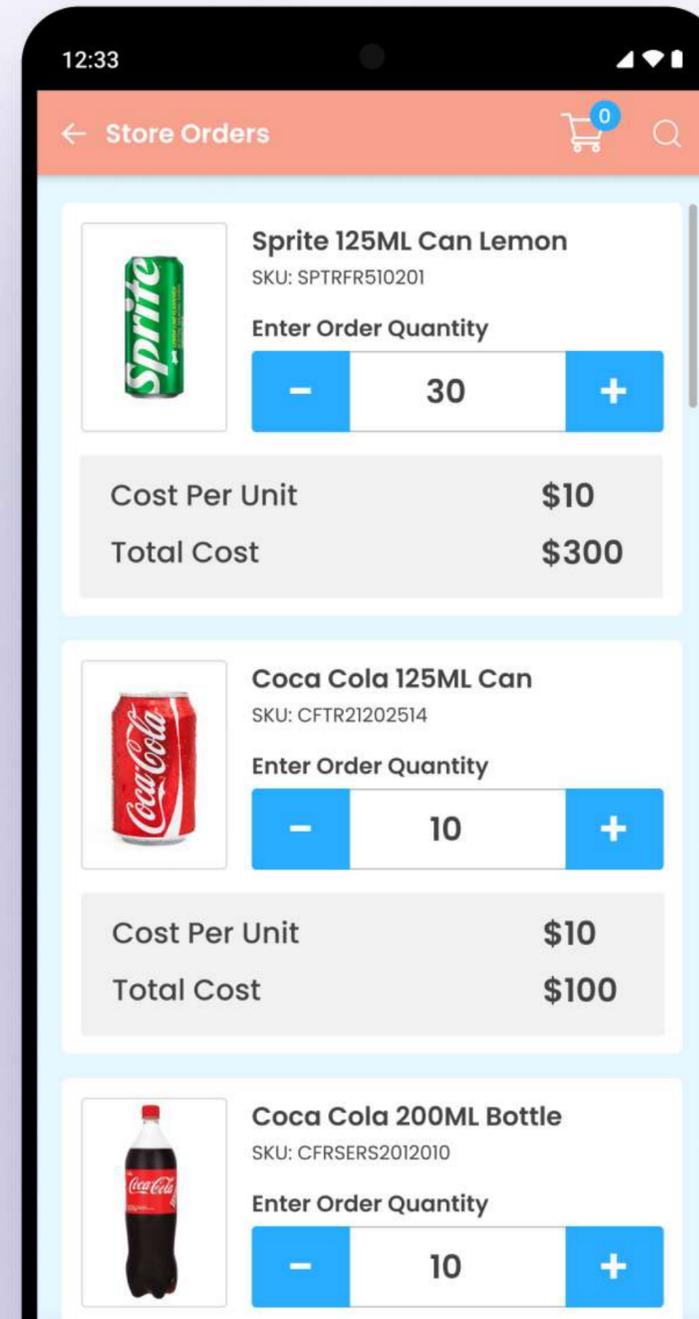

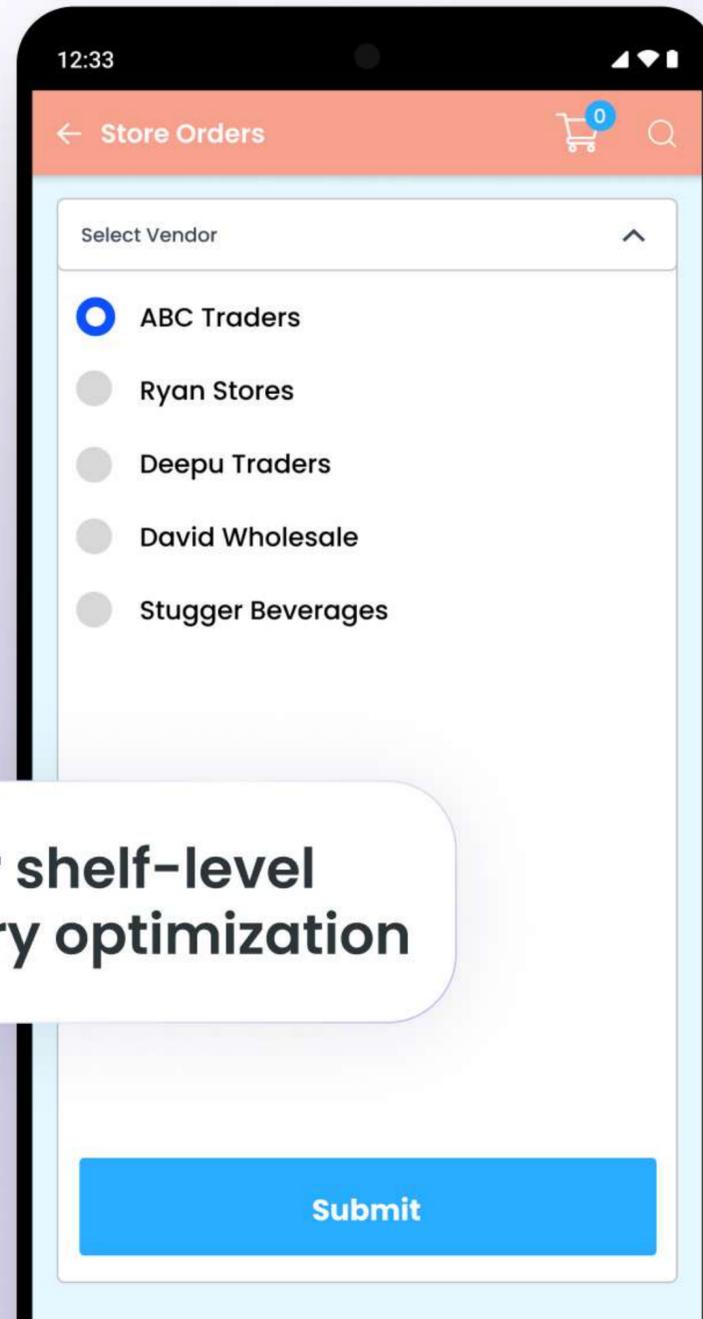

A modal window titled 'Reject Count Analysis' is overlaid on the left side of the table. It contains a text input field with the placeholder 'Some counts are wrong, please do a proper recou...' and a 'Submit' button. Below the input field is a 'Cancel' button. The modal also includes a character count '20/70'.
